## Denyo in Construction & Survey Productivity Improvement EXPO 2022

Denyo Co., Ltd.

Head Office: 2 -8 -5, Nihonbashi-horidomecho,

Chuo -ku, Tokyo

From May 25<sup>th</sup> to 27<sup>th</sup>, Denyo ran a booth at the Construction & Survey Productivity Improvement EXPO (“CSPI-EXPO”) held in Tokyo.

We showed a “Fuel Cell Portable Generator” which is driven by hydrogen and does not emit CO<sub>2</sub> during its operation at the CSPI-EXPO.

As the result, we had about 500 visitors to our booth and could end the CSPI-EXPO on a high note.

### Fuel Cell Portable Generator

So many visitors came to our booth and got interested in our products.
