#### [ Highlight ]

Under the theme "Uniting Cutting-edge Technologies for the Next Generation," this exhibition stands as the largest gathering in Japan's construction industry. At our booth (No. 21-71), we will present pioneering environmentally conscious technologies and Generators with IoT functionality, including the Fuel Cell Portable Generator fueled by hydrogen and DCA-45LSK2 equipped with ComAp controller and DCA-19ESEY5 with DSE Controller.

By showcasing Denyo's latest generator products equipped with cutting-edge technology, we demonstrate Denyo's commitment to contributing to a decarbonized society and providing customers with greater convenience through new technologies such as IoT.

#### [ Exhibition Products ]

BDW-120BP: Backpack-style battery welder.

Sound proof type generator with ComAp Controller

- DCA-19ESEY5: The Europe model generator with DSE Controller.
- DCA-60LSIE: Engine driven generators with operational data recording
- And more: Environment-conscious structure and eco functions mounted engine generators.
